

ROYAL
COLLEGE OF
PHYSICIANS
OF IRELAND

Specialty Specific Standards
Occupational Health Medicine
2020

Introduction

All Royal College of Physicians of Ireland (RCPI) training sites that specialise in Occupational Medicine will be required to achieve and maintain the accreditation standards detailed in this document. The Accreditation Office manages the process of inspecting and accrediting training sites.

General Information

1. SUPERVISION	
1.1	There must be a FTE specialist Occupational Medicine Physician to supervise trainees and provide training in and supervision of Occupational Medicine procedures.
1.2	A lead trainer will be assigned and available to trainees for training activities and meet with the trainees for informal teaching. Must be registered with RCPI.
1.3	Meetings between the trainer and trainee must occur on a minimum monthly basis. Weekly meetings are strongly recommended.
1.4	Trainers are supported by the training site and RCPI to be given the time and resources to meet their supervision requirements.
2. CASE LOAD	
2.1	Trainees must gain adequate experience in and skills throughout their training programme. The quantity and variety of the workload available to Occupational Medicine trainees must be sufficient to meet the requirements detailed in the current RCPI Occupational Medicine curriculum.
2.2	It is essential that there be adequate numbers and variations of patients that participate in the services provided. Trainees must experience adequate and supervised consultations.
3. RESOURCES	
3.1	Trainees must have access to appropriate learning resources and facilities, including up-to-date medical literature and online journal access appropriate for Occupational Medicine specialist training.
3.2	Trainees must have access to the infrastructure required for confidential and educational activities which allow telephone calls, emailing and reviewing of work online.
4. EDUCATIONAL ACTIVITIES	
4.1	The training site should provide formal training including; Lectures, tutorials and grand rounds.
4.2	Trainees should be provided with the opportunity to teach junior colleagues, undergraduates and allied health professionals.
4.3	The site should provide opportunities for trainees to develop research interests on site or through affiliation with appropriate research institutions.
