

## Checklist pre-submission of FPHMI Public Health Reports

Version 1.1

August 2023

This checklist is an aid for candidates who are planning submission of PHRs for Part II FPHMI. From January 2022, candidates are expected to have read this document and comply with the contents when preparing and submitting PHRs. The formatting and referencing of PHRs will be examined with reference to this checklist.

		Completed (please tick)
<b>Submission</b>	Information in the MFPHMI Regulations and in the MFPHMI Part II Public Health Reports (PHRs) Guidance, available <a href="#">HERE</a> , must be read prior to finalising your PHR and preparing it for submission.	
<b>General Formatting</b>	Uniform left (at least 3.5cm) and right (2.5cm) margins continue throughout the entire PHR	
	Font size should be 12; both font size and style should be consistent throughout the PHR.	
	Larger font sizes, bold, italics and underlining may be used to distinguish chapter heading and section headings, but they must be applied consistently throughout the PHR	
	Text appears in a single column on each page and is double-spaced (except for blocked quotations, notes, captions, legends, and long headings, which are single-spaced)	
	Text is left-justified	
	Pages do not contain running headers or footers, aside from page numbers	
	Formatting for tables, figures, and illustrations is consistent throughout the entire document; headings and captions for the associated elements are on the same page	
	In general, aim to keep tables on one page, use landscape to achieve this where possible.	

<b>Language</b>	PHR may be written in the first person or third person. If using active voice, be sure it is clear to the reader the components of the report conducted by the candidates versus components conducted by others.	
	Use tenses correctly throughout	
	UK spelling (not US) checked and correct, e.g. programme, not program. Note: An exception is when quoting the title of a reference using US spelling	
	Grammar checked and correct	
	Do not start a sentence with a number, but if this is necessary, then write it in text rather than numerals (i.e. Twenty one percent rather than 21%.)	
	Percentages in text should be rounded up or down to one decimal point	
<b>Page numbering</b>	Title page, no page number	
	Use lower case roman numerals up to Chapter 1 and then start numbering using arabic numerals	
	Page numbering continues consistently throughout the references and appendices	
	All page numbers are centred at the bottom of the page	
<b>Word count</b>	The word count should not exceed 10,000 words (also applicable if corrections/amendments are required after the exam has taken place), excluding the title page, table of contents, acknowledgements, abbreviations, summary, appendices, and references. Tables/figures/footnotes are included in the word count.	
	Submit electronic PHRs in word, not PDF, to facilitate checking of word count

<b>Table of Contents</b>	Pages preceding the table of contents are not included, but all parts of the document that follow are included (i.e. lists of tables /figures, abbreviation list, chapters, appendices, references)	

	Each entry is aligned with the document's left margin or indented using consistent tabs	
	Lists the titles of each chapter, plus all Heading Level 2's – these are the main sections within each chapter. Do not list any subsections.	
	All corresponding page numbers are accurate and leaders (lines of periods) fill out the space between the end of the entry and the page number; the last digit of each number lines up on the right margin	
	Information included in the table of contents matches the headings, major subheadings, and numbering used in the body of the document exactly

	Each entry is single-spaced, with a double space between entries
