All candidates taking the examination via remote invigilation will be emailed by our online exam provider, TestReach approximately 10 days in advance of the examination date. This email will contain the candidate's login credentials and instructions to download the Exam Application on the device the candidate will use to take their examination.

The email contains instructions for the candidate to login to the application and test their device, webcam, microphone, and speakers. The candidate is also instructed to book a time slot to start their examination. Please refer to our [limited attempts policy](#) for more details.

3. Preparation for the Examination

Preparation requires a wide breadth of knowledge and you should review what you have learned during your specialist training, and access relevant textbooks, journals, and clinical guidelines.

4. Examination Format

4.1 Examination Format

The EBEDM papers contain questions designed to test core knowledge and comprehension, the examination also assesses the ability to interpret information and to solve clinical problems.

The examination consists of two papers each with 100 Single Best Answer (SBA) format questions. Candidates have 3 hours allocated for each paper. The examination is delivered online via remotely invigilation.

Each question consists of an initial stem followed by 5 possible answers. Candidates should select single best answer.

Each question is equally weighted. There is no negative marking, so you are strongly advised to give a considered response to every question.

4.2 Blueprint

The questions are selected to achieve a balanced spread of questions across the topics. The categories of the 200 questions used in the Examination are determined by the percentages outlined in the table below. The skills will be examined across the specialties and not necessarily within any individual specialty.

TOPICS	% ± 5%
Diabetes	
Diabetes Presentation and Management	14%
Diabetes Complications	14%
Diabetes Emergencies	6%
Hypothalamus & Pituitary	10%
Thyroid	18%
Parathyroid/Bone/Ca²⁺	8%
Adrenal	10%
Reproductive/Gonads	10%
Other (Hypertension, Lipids, Obesity, Genetics)	10%

4.3 Marking

The marks of the two papers will be combined. Each correct answer will be awarded 1 mark making a total of 100 available for each paper. There is a total combined mark of 200. Candidates will not be required to pass both papers individually. There is no negative marking; therefore, all candidates are encouraged to answer all questions.

Data files containing candidates' answers are automatically verified and scored against an answer key in the system. Mathematical performance indicators are then calculated and scrutinised by the Board, to confirm the fairness of every question. The pass mark is approved by the Board for each examination.

If a candidate takes more than one break, or a break longer than five minutes, their performance will be subject to an enhanced review of the proctoring record and analysis of their keystroke/clickstream data obtained after the

examination. Candidates who require to take an additional break for medical reasons should request this through reasonable adjustments process. Supporting evidence will be required for such requests.

5.10. Dress and appearance are an important aspect of professionalism.

7.1. Reporting Procedure of Examinations Misconduct

Suspected misconduct may be reported to the College by examiners, invigilators/supervisors, candidates, patients and any other person who becomes aware of suspected misconduct.

Where an invigilator/supervisor suspects a candidate of violation of examination rules and guidelines, they will:

- a. Confiscate any unauthorised material in the possession of the candidate.
- b. Make a note of the time when the alleged infringement was discovered.
- c. Allow the candidate(s) to continue the examination.
- d. For a remote invigilation exam, the invigilator may terminate the candidate's exam session in the case of major violations of the exam rules, such as leaving the room without authorisation or communicating with unauthorised persons.
- e. Inform the candidate(s) at the end of the examination that a written report of the incident will be submitted to the Examination Manager and the Examination Board Chairs.
- f. Within one working day of the examination, the invigilator/supervisor will submit a written report on the alleged infringement.

7.2. Investigation Procedure of Examinations Misconduct

The Examinations Manager will review the report of the alleged case of misconduct within three working days of the examination and will determine whether there is sufficient evidence of a case to be answered after consulting with other members of College staff where necessary. In cases deemed to be of a very minor or technical nature, a letter of reprimand will be issued to the candidate, and no further action is taken.

In all other cases the Examinations Manager will review the report with the Examination Board Chairs. Following the review, the candidate will be informed of the allegations in writing within 10 working days of the examination.

The candidate will be invited to reply to the allegation of misconduct, within 10 working days from receipt of the email/letter. If the candidate does not respond to the letter within the specified time frame, the College will consider this as an acknowledgment of the allegation and will proceed to the next phase of the misconduct investigation procedure.

Following a response from the candidate, the College will acknowledge the receipt of the response.

The Examination Board Chairs will prepare a file which includes the candidate's response if one has been received and send the file to the ESE Education Committee Chair and UEMS for a final decision along with a recommendation of an appropriate penalty.

The candidate will be notified of the final decision within 30 days of the examination date.

A candidate who believes that there was an error in the conduct of the investigation may, within 10 working days of receiving the Committee's decision, request a review of the investigation by the College Censors.

The College Censors shall review all information provided by the candidate, to determine if the correct procedure was followed in the conduct of the investigation, and if the investigation was fairly treated. The purpose of this review is solely to determine if such a procedural irregularity has occurred and is not to relitigate the decision.

If the review concludes the investigation to be fair the candidate will be notified within 10 working days from receipt of their request.

If the College Censors determine that there was an error in the conduct of the investigation, they may refer the matter back to the ESE Education Committee Chair and UEMS for further consideration. The candidate will be notified of the status of their review request and provided with an estimated timeline for the final decision. The Censors shall then refer the matter to the College Executive, which shall decide on any appropriate further action. The decision of the Censors and/or College Executive shall be final.

8. Reasonable Adjustment Arrangements

Any candidate who has a physical disability, learning disability or any other special need that they believe could affect their performance in an examination, may be entitled to adapted examination arrangements. The purpose of any specific arrangement is to compensate for any restrictions imposed by a disability without impairing the validity of the examination.

All such candidates should inform the Examinations Department at the time of application of their circumstances in writing, together with a consultant's report to support their application. Failure to include this information at the time of application may affect the arrangements that can be put in place in time for the examination. The information provided is treated strictly confidentially.

For further details, see Reasonable Adjustments Policy: [Examinations Policies and Procedures](#).

9. Examination Results

The College processes the marking of the examinations as quickly as possible, consistent with ensuring accuracy, fairness and a stable pass standard.

For Written exams, data files containing candidates' answers are automatically verified and scored against an answer key in the system. Mathematical performance indicators are then calculated and scrutinised by the Board, to confirm the fairness of every question. The pass mark is approved by the Board of Examiners for each examination.

Please refrain from telephoning or emailing the College regarding your result during this period, as this will delay the process.

10. Recheck Procedure and Appeals Policy

10.1 Recheck Procedure

Candidates can request a recheck of their examination results in the EBEDM Written examination. A fee of €150 applies for this procedure. The fee will be refunded if a recheck changes the overall examination result to a pass mark. Exam marks are generated by a rigorous process with multiple safeguards and are also reviewed by the Examinations Board before the results are released. Given the nature of single best answer questions, the quality assurance measures undertaken by the Board, and the exam being conducted via computer-based testing, the margin for error is negligible and therefore it is highly unlikely that a recheck will result in a change to an exam result.

Candidates wishing to request a recheck of their exam results, must submit their request in writing to the Examinations Department exams@rcpi.ie. The candidate will be required to complete the recheck application form and pay the applicable fee within four weeks of the results release date.

10.2 Appeals Policy

An 'appeal' is defined as a request for a review of a decision made by or on behalf of an Examinations Board about the performance in an examination of a candidate subject to the grounds of appeal as set out in the in the appeals policy.

The only accepted grounds for an appeal are if there is clear evidence of procedural irregularity in the conduct of the examination or there were exceptional circumstances which adversely affected a candidate's performance.

Candidates are expected to notify Examinations staff of any irregularity regarding their examination during the examination or within 48 hours of the examination. at the earliest opportunity.

Please refer to our appeals policy for more details: [Examinations Policies and Procedures](#).
