Please provide details of up to four examples of research and publications that may be relevant to discussion at interview.

	1.	2.
Output Type (peer reviewed publication, Oral presentation at recognised national/international scientific meeting)		
Citation		
Applicant role/Authorship position (Enter your authorship position as listed in the publication (e.g. 1, 2, 3, 4).		
DOI/PubMed ID/ PMCID/ Conference programme link		
	3.	4.
Output Type (peer reviewed publication, Oral presentation at recognised national/international scientific meeting)		
Citation		
Applicant role/Authorship position (Enter your authorship position as listed in the publication (e.g. 1, 2, 3, 4).		
DOI/PubMed ID/ PMCID/ Conference programme link		

Awards, prizes or exceptional achievements

You may list up to three academic or clinical awards, prizes or recognition of exceptional achievements that you consider relevant to your application for BST.

Name of Award/Prize/Achievement	Description	Awarding body	Date of Award	Level: Local/Medical school/National/ International etc

Scholarly Output

In no more than 250 words, please summarise your scholarly activity in the areas of publication, research, audit etc. that you consider most relevant to your application for BST. You may refer to any publications listed above, but this section should focus on what you learned from those experiences and how they have prepared you for BST.

Motivation for BST

In no more than 250 words, please outline your motivation for applying to this BST programme and how it aligns with your career development.

Understanding of the specialty and programme

In no more than 250 words, summarise the clinical experience that you consider most relevant to your application for BST. You may refer to posts listed above, but this section should focus on what you learned from those experiences and how they have prepared you for BST.

Career Objectives

No more than 250 words, please summarise your career objectives

Data Sharing

I understand that the personal data provided in this application may be shared, where necessary, with:

- Relevant staff of the Royal College of Physicians of Ireland (RCPI);
- Faculty and Institute members involved in the assessment and selection process; and
- Relevant Health Service Executive (HSE) staff involved in the administration and delivery of postgraduate medical training.

RCPI may also share relevant personal data, including special category personal data where necessary, with employing organisations and other relevant bodies for purposes connected with recruitment, appointment, training, and compliance with applicable statutory or regulatory requirements relating to the Basic Specialist Training Programme for which I am applying. Such information will only be shared where it is necessary and relevant to these purposes.
